Product Description

Product Description

Hoptic assemblies matching with Corning Optitap

DYS's H optic assemblies provide a robust and sealed connection solution for fiber to the home (FTTH) connectivity. The H optic connector end incorporates an SC/APC type connection within a slim, sealed, threaded polymer housing allowing easy connection to either a multipoint terminal or in-line extension receptacle. The SC/APC connector mates to a standard adapter, providing a common interface for FTTH applications. Available with flat drop or traditional round style OSP cables, the H optic connector provides an ideal solution for direct burial, conduit, or aerial installations.
