Product Description

Product Description

Pre-Connectorized OptiTap to SC/APC Drop Cable Hardened Corning OptiTap Drop Cable

DYS OptiTap / H connector assemblies provide a robust and sealed connection solution for fiber to the home (FTTH) connectivity. The hardened connector end incorporates an SC/APC type connection within a slim, sealed, threaded polymer housing allowing easy connection to either a multipoint terminal or in-line extension receptacle. The SC/APC connector mates to a standard adapter, providing a common interface for FTTH applications. Available with flat drop or traditional round style OSP cables, the hardened connector provides an ideal solution for direct burial, conduit, or aerial installations.

Features

1. Compatible with Corning-OptiTap and H-Connector;
2. Factory terminated for high performance;
3. Available with one or both ends connectorized;
4. Hybrid (one end with an OptiTap Connector, one end with standard SC connector) available with or without pulling grip;
5. Available in dielectric or toneable;
6. Designed for aerial, direct-buried or duct installation;
7. IP-68 water and dust protection ;
8. -40 ~85 operating temperature;
