Customized compatible drop Cable Fiber patch cord Optitap Connector

Compatible Optitap Connector

MINI IP cable assemblies provide the most cost-effective method of deploying optical fiber in outside plant distribution networks at speeds significantly faster than traditional field installations. The assemblies guarantee an easy, one-step connection system with the combined push-pull insertion and nut-style mechanical latch. MINI IP cable assembly provides quick installation solutions and has good performance on mating with MINI IP adapter. Cable can be armored or non-armored. MINI IP connector utilizes optical fiber cables upon which network access points are pre-installed at customer-specified locations along the length of the cable.

Features/ Compatible Optitap Connector

- 1.Provides moisture and dust protection for use in harsh industrial environments.
- 2.IP68 protection, salt-mist proof, humidity proof, dust proof.
- 3.Dramatically reduces field splicing with a predetermined loss at each waterproof tether access point.
- 4.Utilize traditional field installation techniques for aerial, below ground and duct applications.
- 5.Reduce installation time by as much as 50 percent per network access point.
- 6.100% optically tested to ensure quality performance assemblies.
