Product Description

FTTH SC Fiber Optic Fast Connector SC/APC Fast Connector

The Fast Connector (Field Assembly Connector or Field terminated fiber connector, quickly assembly Fiber connector) is a revolutionary field installable optical fiber connector that requires no epoxy and no polishing. The unique design of the patented mechanical splice body incorporates a factory-mounted fiber stub and a pre-polished ceramic ferrule. Using this onsite assembly optical connector, it is possible to improve the flexibility of optical wiring design as well as reducing the time required for fiber termination. The Fast connector series are already a popular solution for optical wiring inside buildings and floors for LAN & CCTV applications and FTTH.

Feature

- 1) Factory-installed fiber stub.
- 2) No epoxy and polishing required, No special tools needed when installed.
- 3) Allows up to three re-termination result.
- 4) Easily installed, Quick and easy fiber termination in the field.
- 5) Only 30 seconds needed to learn the process of installation and making.
- 6) Cost effective, Warranty: One year.
- 7) Fast connecting and repeat, No special tools needed when installed.
- 8) Can be made on-site without splicing connectors.
- 9) Eliminates cable excess length and pigtail splice storage.
- 10) Can be intalled and maked repeatedly thus avoiding loss.
